

Privacy statement

With this privacy statement we inform you about our procedure concerning privacy and personal data. We do this according to the European GDPR regulation.

This privacy statement applies if you are involved with our services and products and job application processes.

Van Stenis Group uses this privacy statement for Van Stenis Group, Luitec BV, Sellon BV and Startflow BV.

What is saved?

If you share personal data with us via the contact form of the website, your contact data will be saved.

As a business relation (prospect, customer or supplier) your company and contact data are saved in our administration after mutual contact without further request for permission.

For mailings or publications on behalf of Van Stenis Group, Sellon BV, Luitec BV and Startflow BV, for marketing purposes in particular, your permission will be requested in advance and will be saved.

We also keep the CV of job applicants for a limited time.

Statement

It is important to handle your personal data properly. Your personal information is therefore carefully processed and adequately secured by us.

We can use your personal data for the following purposes:

- providing our services,
- invoicing our services,
- handling of quotations,
- to contact people for making an appointment or giving feedback,
- to analyse website traffic.

We can use received information from job applicants:

- for evaluating the candidate profile for a job position.

We will never ask for more information than necessary and we will never pass on your data to third parties without your permission.

Which personal data?

We register the following personal data of our prospects and business relations:

- name and surname contact person,
- job title,
- business telephone number,
- business email address,
- your company name.

Security

We take security measures to limit abuse or unauthorized access to personal data.

Such as:

- We have an ISO 27001 certified IT provider.
- We have data processing agreements with our processors if required.
- Our employees threats personal data respectfully.

When a data leak occurs, we will report this to the Dutch Data Protection Authority (AP) and the persons whose data has been leaked.

Retention period

The personal data of our prospects and business relations mentioned above are saved for as long as we consider necessary for our business activities. The data will be erased if we no longer consider it necessary to process your personal data or if we receive a (legally valid) request for removal of your data, unless there is a legal obligation that requires longer storage.

Personal data of job applicants will be deleted 4 weeks after the vacancy has been filled, unless the job applicant give permission to keep its data for a longer period.

Cookies

Cookies are small text files that are placed by a website on a PC, tablet or mobile phone. We use cookies and similar techniques to make the use of our websites as easy and personal as possible. We also want to place these cookies to ensure that you see relevant advertisements from us on other websites and that you can share our content via social media. Functional, analytical and advertising cookies are used on the websites.

Functional cookies

Functional cookies ensure that the site works properly.

Analytical cookies

We also use analytical cookies. We do this to investigate the use of our websites. In this way a permanent cookie is placed on your computer or mobile device. As a result, we gain insight into how and how often our websites are used and, based on that data, we can make adjustments to the websites if necessary. In this way we ensure that the websites work optimally. Via Google Analytics, among others, we can store the following data in cookies:

- IP address;
- technical features such as the browser you use (such as Chrome, Safari, Internet Explorer or Firefox) and the resolution of your computer screen;
- from which page you came to the website;
- when and for how long you visit or use the website;
- whether you use the functionalities of a website;
- which pages you visit on the website.
